FLOWERING FRUIT TREES

For your convenience we give below brief descriptions with available sizes and prices of what we still have unsold in flowering Apples, Cherries, Peaches and Plums. These trees are steadily gaining in garden popularity and as most of them will flower this spring they are very easily sold.

As usual we will supply five or more at the 10 rate and 50 or more at the 100 rate. Available quantities can be inferred from rates quoted. If no 100 rate is given we have less than 50 unsold of that particular size.

All pit fruit stock is grown outside the borer district so is perfectly clean and can be shipped anywhere.

FLOWERING APPLES
